

TD Navio

Communication you can count on

TD Navio is a highly customisable assistive communication solution for people with conditions such as autism. Light, durable, and pre-loaded with AAC software, this purpose-built speech generating device offers exceptional runtime with an extended warranty to back it up. It has been designed with many personalisation options to suit different needs and preferences, including a choice of three sizes: Mini, Midi and Maxi.

Purpose-built

Communicate with a dedicated, purpose-built, touch screen device pre-loaded with AAC software.

Customisable

Personalise for needs and preferences with different voice options, access methods, sizes, colours and more.

Durable

Shield against impact with built-in supports, a protective case, and glass screen protector. Feel confident with a 5-year warranty.

Portable

Use wherever, whenever thanks to all day runtime, a lightweight design, integrated handle, foldable leg, and powerful speakers.

Add your touch

TD Navio is a powerfully personalised communication solution. It comes pre-loaded with a choice of AAC software to meet the needs of both symbol-supported communicators and literate adults. Choose from among multiple page sets and voices to suit different needs and preferences. Use this multi-access touch screen device via touch, switch, mouse, headmouse, stylus or joystick. Go from flat to nearly upright to view the screen from multiple angles, and adjust the speaker volume with ease.

TD Snap

A symbol-supported AAC software offering a choice of solutions, complete with tools and resources.

TD Talk

A simple text-to-speech app that enables natural conversation using just your hands.

Accessories

All TD Navio devices come with a curated selection of accessories included in the box, which are also available for purchase separately as spares or replacements:

Protective Case

Device Shoulder Strap

Carrying Case

Power Supply
